PROFESSIONAL SUMMARY

Results-driven **Java Full Stack Developer** and **Python Full Stack Developer** with professional experience in designing, developing, deploying, and maintaining scalable web applications. Currently serving as a **Project Lead and Java & Python Trainer** at Vetri IT Systems, leading end-to-end software development projects while mentoring aspiring developers. Experienced in software architecture, MVC design pattern, authentication, role-based access control (RBAC), database design, API development, and Agile methodologies. Passionate about building enterprise-grade applications, mentoring developers, and delivering high-quality software solutions.

TECHNICAL SKILLS

Languages: Java (Core Java, OOP, Exception Handling, Collections), Python, JavaScript, SQL

Backend Frameworks: Spring Boot, Spring MVC, Django, RESTful Web Services, JDBC

Frontend Technologies: React JS, HTML5, CSS3, Bootstrap, Tailwind CSS, Thymeleaf

Database & Cloud Tools: MySQL, Aiven, Railway, Render

Developer Utilities: Git & GitHub, Postman API Testing, Visual Studio Code

Core Concepts: MVC Architecture, REST API Design, Role-Based Access Control, OOP

PROFESSIONAL EXPERIENCE

Full Stack Trainer & Project Lead (Java & Python)

February 2026 – Present

Vetri IT Systems, Tenkasi, Tamil Nadu

- Delivered professional training in **Java Full Stack** and **Python Development** to 20+ trainees.
- Trained students in Core Java, OOP, Collections, JDBC, Spring Boot, REST APIs, and MySQL databases.
- Conducted frontend training sessions covering HTML5, CSS3, Bootstrap, and JavaScript.
- Led end-to-end development of real-time full-stack projects using **Spring Boot** and **MVC architecture**.
- Implemented user authentication and **role-based access control (RBAC)** modules.
- Mentored trainees in Git/GitHub version control, API testing with Postman, and cloud deployment on Render/Railway.
- Performed detailed code reviews, debugging, and application performance optimizations.

Junior Software Developer (Internship)

January 2026

Vetri IT Systems, Tenkasi, Tamil Nadu

- Developed **Spring Boot-based** web applications following strict MVC architecture patterns.
- Built backend RESTful APIs and integrated them seamlessly with client-side interfaces.
- Designed normalized MySQL database schemas and engineered custom CRUD query operations.
- Utilized Git & GitHub for project version control and collaborative feature integration.

PROJECT EXPERIENCE

E-Commerce Web Application | Java Full Stack

Dec 2025 - Jan 2026

- Built a full-stack e-commerce system with user session authentication, product management, interactive shopping cart, and order processing workflows.
- **Razorpay Integration:** Integrated Razorpay API to process payments, triggering automatic PDF invoice creation on successful checkouts.
- **AI Chatbot:** Integrated an automated support chatbot using a custom Java-based Levenshtein distance algorithm for typo-tolerant FAQ responses and direct order status tracking.
- *Tech Stack:* Java, Spring Boot, MySQL, REST API, HTML, CSS, Bootstrap, JavaScript, Razorpay API, Render, Railway

Employee Management System (EMS) | Spring Boot

Nov 2025 - Dec 2025

- Developed a corporate HR portal supporting employee record storage, check-in tracking with active IP logs, and automatic work-hour calculations.
- **Workflows & Roles:** Constructed dynamic leave approval forms and customized dashboards tailored for Admin and Employee roles (RBAC).
- *Tech Stack:* Java, Spring Boot, Thymeleaf, Bootstrap, JavaScript, MySQL, REST API, Aiven, Railway

EDUCATION & CERTIFICATIONS

Certified Java Full Stack Developer

November 2025

Vetri IT Systems, Tenkasi, Tamil Nadu

Diploma in Electronics & Communication Engineering

Completion: 2021

S. Thangapazham Polytechnic College, DOTE

SSLC (10th Standard)

Completion: 2018

Govt. Hr. Sec. School, State Board
